Company Mission Statement

To be the best Service Company in Australia in the eyes of our customers, communities and employees.

To provide the safest, highest quality service in Australia.

To provide absolute customer satisfaction and secure customer return on capital.

To provide total commitment to make our communities a better place to live, and promote environmental awareness.

Company Capabilities

CCI is a company managed and executed by a team with extensive experience in many fields, including but not limited to food, pharmaceutical, beverage, petrochemical, power generation, foundries, industrial, manufacturing, environmental monitoring, water treatment, pulp and paper and refrigeration.

CCI can adjust and repair a range of suppliers equipment back to within manufacturers tolerances. This is conducted both on site or in the CCI workshop.

CCI can certify control equipment using calibration equipment which is traceable to NATA Standards, and provide you, the customer, with high quality detailed documentation.

CCI have the capability to assist dairy customers with external audits and world export requirements, and are able to liase with your auditors needs.

CCI will always provide prompt, reliable and dedicated service to its customer base, and provide open and honest communication paths on and off site.

CCI is also willing to assist customers where experienced support is required for shutdowns or extraordinary work loads, and integrate with the customer's team.

Due to CCI's close associations and knowledge of many instrumentation suppliers and CCI's wide experience, we are able to recommend the most appropriate instrument for the duty.
